

## San Carlos Apache Reservation

33°20' 23.46"N  
109°29'40.75"W  
- Elev. 4831 - 4858  
Dirt Runway 17/35  
Rising to North  
Dim. 20' x 2400'

## Apache Sitgreaves National Forest

Highway 191  
8.5 Miles

### Hazards

Varying surface conditions

Veering off RWY may damage aircraft

20 ft. width with rocks along edges

Ruts, erosion, rising elevation to north

Narrowing at culvert

Crosswinds possible

High density altitude

Wildlife

Structures & Tower 350' south of

Runway 35 touchdown point

### Unmarked Offset Threshold for Rwy 17

Minimum 250' South of Turn Around,

Low Wing Watch for Brush North of Culvert

Strip Runs for 1800' South of Culvert

### Double Circle

Located on USFS land, Clifton District, 30 miles Northwest of Clifton. It is nestled between year-round flowing Willow and Eagle Creeks at the historic Double Circle Ranch homestead.

#### Before you go:

Contact the APA or RAF at:  
520.826.2112

Group events are arranged each year by the Arizona Pilot's Association and the Recreational Aviation Foundation. These events will be posted at:

[www.AZPilots.org](http://www.AZPilots.org)

[www.Facebook.com/AZPilots.org](http://www.Facebook.com/AZPilots.org)

[www.theRAF.org](http://www.theRAF.org)

### Other Important Info

FAA Identifier: Z66

CTAF: 122.9

Pattern: LEFT

Avoid flying over homes at higher throttle settings! When landing Rwy 17, a left downwind east of homes and Eagle Creek Rd. is suggested.

#### Group Events:

Parking will be guided by ground crews. DO NOT Taxi off strip to park! Large rocks are hidden in vegetation off of Rwy. Parking is along west side at south end.

Be a good aviation ambassador by practicing the "No Trace" principals, pack in it, pack it out, including trash left by others!
