

New Mexico Airstrip Network STRATEGY

Our common goal is to increase public access to airstrips for recreational opportunities, to promote tourism and economic development, while conserving the environment.

Theme I: Preserve and enhance airstrip access

Strategy 1: Identify additional airstrips or facility improvements to **increase the inventory of airstrips and recreational opportunities** in the network.

Strategy 2: **Classify and inventory** the diverse network of airstrips to promote safe use.

Strategy 3: Identify, prioritize, and address **airstrip maintenance needs**, to increase safety and assure continued use.

Theme II: Demonstrate the sustainable value of airstrips as one of New Mexico's truly unique transportation assets

Strategy 4: Market and educate communities of interest and stakeholders to create awareness and understanding of the importance and benefits of the network.

Strategy 5: Provide for ongoing administration of the network.
